

Test result report

Tango-Live Stream & Video Chat

22.02.2023

Test team:

Name	Position	Role in the project
Daria Pavlovskaya	Team Lead, Tester	Functional testing
Alexey Zelenkevich	Tester	Functional testing
Ihar Antanchuk	Tester	Functional testing
Viktoriya Novikova	Tester	Functional testing
Tryakina Ekaterina	Tester	Functional testing

Testing process description

Test environment:

- **Desktop:** Windows 11 build 22000.1574, Windows 10 build 19044.2673, Windows 8.1 build 9391;
- **Mobile:** Android 13 build TP1A.220624.014; Android 12 build SP1A.210812.016, Android 10 build 9383110;

Test level: System testing.

Test types used: Functional, Compatibility, GUI, UX, Localization

All test scenarios were created based on user experience using black-box testing techniques.

All tests performed manually, execution details see at: Jira — Projects — Md-ST1-345-22 — MDST34522-39

Summary

News: Tango is rated 4.4 (Based on 4,201,264 votes) on the Play Store.

Test Analysis: Found 5 bugs, 4 of which were found as a result of test cases execution, and 1 due to ad hoc testing.

Testing timetable:

Tester	Date	Description	Duration
Daria Pavlovskaya	6.02.2023	Creating checklist;	1.5h
	09.02.2023	Creating test cases;	6h
	16.02.2023	Test Execution;	2h
	16.02.2023	Creating bug report;	15 min
	22.02.2023	Creating TRR	20 min
Alexey Zelenkevich	6.02.2023	Creating checklist;	1.5h
	09.02.2023	Creating test cases;	3h
	16.02.2023	Test Execution;	3h
	16.02.2023	Creating bug report;	
Ihar Antanchuk	6.02.2023	Creating checklist;	2h
	09.02.2023	Creating test cases;	8h 4 min
	16.02.2023	Test Execution;	4h
Viktoriya Novikova	6.02.2023	Creating checklist;	2h
	09.02.2023	Creating test cases;	7h
	16.02.2023	Test Execution;	3h
	16.02.2023	Creating bug report;	30 min
Tryakina Ekaterina	6.02.2023	Creating checklist;	2h
	09.02.2023	Creating test cases;	8h 10 min
	16.02.2023	Test Execution;	1h 3 min
	16.02.2023	Creating bug report;	15 min

Recommendations:

I would recommend to improve user experience, because of some steps hard to understand how do it(for example change account in mobile version). Can improve this by observing the user. Give them a task and see how they complete it, which will reveal problem areas in the ux.

Improve complex functionality for new users, because when you sign up just now the first minutes in the app interface differ from declared.

New bugs found:

1	Minor	In the Admins Assigned bottom sheet the list of users is not fully displayed
2	Minor	Localization issue for the notification bar on the Live stream setting screen
3	Medium	Content of tab "Broadcaster Tips" are missing when the language changed
4	Medium	Incorrect display of stream viewers
5	Medium	Display active Pay button when card number is removed in the payment module on the website

All bugs statistics:

Status	Quantity	Severity			
		Critical	Major	Medium	Minor
New	5	0	0	3	2
