ID	Title
1	text isn't displayed in the calculator interface
2	"5" entered like "55"
3	"6" entered like "9"
4	"9" entered like "6"
5	button "8" disappears after clicking
6	button "0" color turns blue
7	no display of actions performed
8	the value of the arithmetic buttons after clicking does not appear in the i/o field
9	empty default i/o field

10	operation with decimal number leads to error
11	incorrect count subtraction with 2 20-digit numbers
12	blank click error
13	clicking 3 times on an empty digit space gives an error and application is quit
14	layout error button "*"
15	instead of "x2" button a fox is displayed

1.0	ampliantiam in muit but blank aliak in aniamtifia manda
16	application is quit by blank click in scientific mode
	near with "fox" and "√x"
17	image of fox opens after calculating a square

Description	Steps to reproduce	Reproducibility
text isn't displayed in the calculator interface Req. 15, 16, 17	1. open calc.exe 2. click on "?????" 3. click on "? ?????????"	always
"5" entered like "55"	1. click on "5" button	always
"6" entered like "9"	1. click on "6" button	always
"9" entered like "6"	1. click on "9" button	always
button "8" disappears after clicking	1. click on "8" button	always
button "0" color turns blue on click	1. click on "0" button	always
the user does not see what has been done when making a calculation Req. 5	1. Click on "2", "+", "2"	always
the value of the arithmetic buttons after clicking does not appear in the i/o field Req. 5	1. Click on "2", "+" 2. click on button "C" 3. click on "3", "-" 4. click on button "C" 5. click on "3", "*" 6. click on button "C" 7. click on "6", "/"	always
empty default i/o field Req. 8	1. open calc.exe	always

operation with decimal number leads to error	1. enter "0.4","-"	always
incorrect count subtraction with 2 20-digit numbers	1. Enter "1234559786012345 5760", "-", "1122334455997766 0011" 2. click on button "="	always
clicking on an empty digit space gives an error	1. click on empty space	always
clicking 3 times on an empty digit space gives an error and application is quit	1. click on empty space 3 times	always
position of the "*" button	1. open calc.exe	always
instead of "x2" button a fox is displayed	1. click the button "?????" in the top menu 2. click the button "???????" in the drop-down menu	always

application is quit by blank click in scientific mode near with "fox" and "√x"	"1. click the button ""?????"" in the top menu 2. click the button ""???????"" in the drop-down menu" 3. click on "6", "5" 4. click on "fox" 5. click near (about 2 pixels rifght) "fox" and "vx"	always
image of fox opens after calculating a square	"1. click the button ""?????"" in the top menu 2. click the button ""???????"" in the drop-down menu" 3. click on "3" 4. click on "fox"	sometimes
